An **Examiner's Amendment** to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In claim 124, line 3, before "multimers", insert --- comprises ---.

Examiner's Amendments to the Specification

In page 1, paragraph 1, underneath CROSS REFERENCE TO RELATED APPLICATIONS, line 2, after "January 8, 1998", insert --- now U.S. Patent No. 6,703,484 ---

The following is an **Examiner's Statement of Reasons for Allowance**:

Claims 96-97, 99-110, 117-124 are directed to a method of making stained molecular weight ladder comprising the following three steps : (1) producing plurality of polypeptides of different molecular weights comprising thioredoxin or thioredoxin deletion mutants, optionally having the ability to form inclusion bodies upon expression in a bacterial host cell, (2) incubating the plurality of polypeptides with at least one protein binding dye to form a plurality of pre-stained molecules weight markers and (3) admixing the plurality of pertained markers to form pre-stained molecular weight ladder.

The first step of the method above is novel. Further the prior art does not teach or suggest preparing such specifically claimed plurality of polypeptides to form such

specifically claimed molecular weight ladder either. Therefore, said step is also non-obvious. Since said step is both novel and non-obvious, a method comprising said step for preparing pertained molecular weight ladder is also novel and non-obvious.

Claims 96-97, 99-110, 117-124 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
